Class A/B UST Operator Online Training Course
Class C UST Operator Online Training Course

GTEC, the Georgia Tank & Environmental Contractors Association in coordination with the Society of Tank & Equipment Professionals (STEP) is proud to present its online courses for the training of A/B UST Operators and for the training of C Operators.

Note: The same A/B Operator course has also been approved as a training course in Georgia. Georgia presently uses the International Code Council (ICC) exam for certification of A/B UST operator training. The GTEC Course prepares the operator to take the ICC Exam. The online C course has also been approved in Georgia as a stand alone certification for C Operators.

For more information and to register, go to www.gteca.com or e-mail:
Bill Greer at billgreer@gteca.com.

PASS offers state approved web-based Class A/B/C UST Operator Training. Our unique training experience include proven higher learner retention, is cost-effective and available 24/7. PASS's training is tailored to exceed state and national requirements in a "Fail-Safe" method and is the only training available in over 30 states. PASS is the trusted training solution to more UST Facilities and State Regulators than any other training.
